

It Takes Two:

Adding Early Intervention Strategies to Reduce Chronic Absence

Welcome

Convening Partners

2016 By the Numbers

- More than **431** communities in **47** states plus DC pinned on the Attendance Action Map
- **203,294** website page views in September
- Over **10,000** listserv subscribers
- **1,571** media hits
- **7,458** tweets using #schooleveryday creating **15.8 million** impressions
- **455** superintendents signed Call to Action appearing in EdWeek

2017 Campaign Goals

1. **Expand the public's awareness** of the important role that regular attendance plays in student achievement as well as the need to address common barriers to getting to school particularly for our most vulnerable children. Given its impact on early attendance, we promote special attention to challenges related to physical and behavioral health;
2. **Promote** schools and community partners using data to drive and take action; and
3. **Activate a wide array of stakeholders** (educators and a wide array of likely and unlikely public agencies and community allies) to partner with students and families to reduce chronic absenteeism.

What's New in 2017

1. Submit stories and ideas for the 2017 AAM Map to catherine@attendanceworks.org
2. Superintendent's Call to Action: Goal is to reach 600 superintendents!
3. September Brief: "Portraits of Change"
4. Look for new graphics to celebrate the 2017 AAM slogan: ***Engagement = Attendance.***

What is Chronic Absence?

Chronic absence is missing so much school for any reason that a student is academically at risk. Attendance Works recommends defining it as **missing 10% or more of school for any reason.**

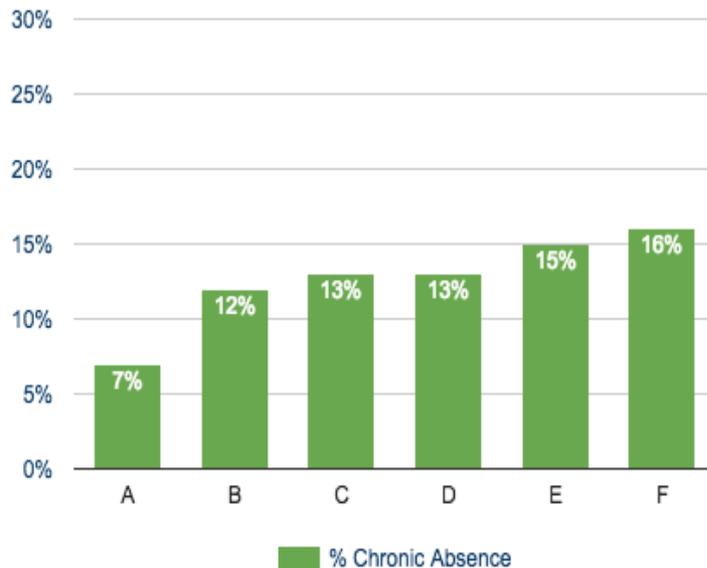

Chronic absence is different from **truancy** (unexcused absences only) or **average daily attendance** (how many students show up to school each day).

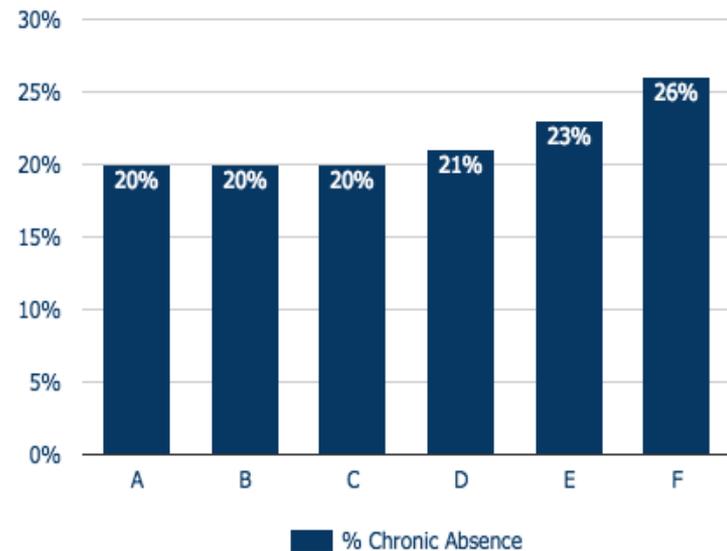

Average Daily Attendance (ADA) Can Mask Chronic Absence

90% and even 95% \neq A

Chronic Absence For 6 Elementary Schools in Oakland, CA with 95% ADA in 2012

Chronic Absence for 6 Schools in New York City with 90% ADA in 2011-12

98% ADA = little chronic absence

95% ADA = don't know

93% ADA = significant chronic absence

Chronic Absence is Easily Masked if We Only Monitor Missing Consecutive days

September					October					November					December					January

Chronic Absence = 18 days of absence = **As few as 2 days a month**

Reflects New Paradigm on Attendance

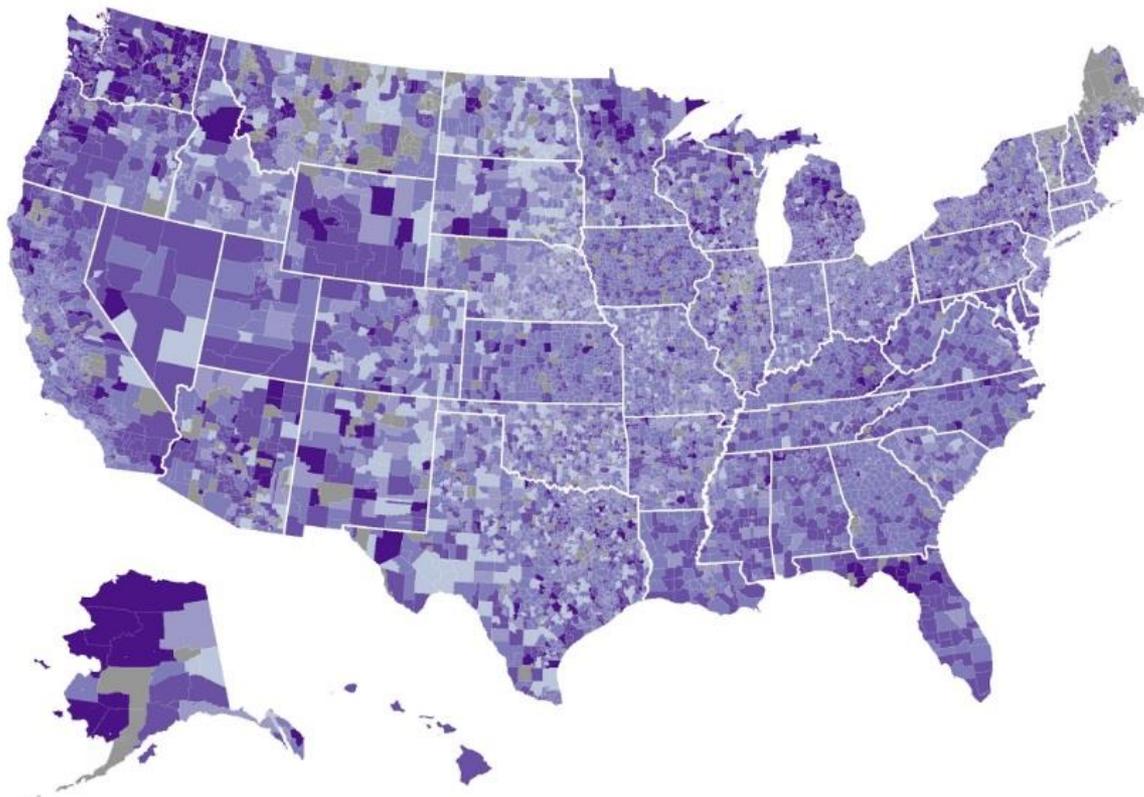

Truancy

- Counts unexcused absences
- Emphasizes compliance with school rules
- Uses legal, typically more punitive solutions

Chronic Absence

- Counts all absences
- Emphasizes academic impact of missed days
- Uses preventive strategies, positive messaging

Over 6.8 million students missed 15 days or more

- **Highly concentrated:** half of the students in 4% of districts
- **Rural districts:** many have high rates of chronic absence

Improving Attendance Matters Because it Reflects:

- ✓ **Exposure to language:** Starting in Pre-K, attendance equals exposure to language-rich environments especially for low-income children.
- ✓ **Time on Task in Class:** Students only benefit from classroom instruction if they are in class.
- ✓ **On Track for Success:** Chronic absence is a proven early warning sign that a student is behind in reading by 3rd grade, failing courses middle and high school, and likely to drop-out.
- ✓ **College and Career Ready:** Cultivating the habit of regular attendance helps students develop the persistence needed to show up every day for college and work.
- ✓ **Engagement:** Attendance reflects engagement in learning.
- ✓ **Effective Practice:** Schools, communities and families can improve attendance when they work together.

Unpack Contributing Factors to Chronic Absence

Myths

- Absences are only a problem if they are unexcused
- Don't realize just missing 2 days per month can affect learning
- Sporadic absences aren't a problem
- Attendance only matters in the older grades

Barriers

- Lack of access to health or dental care
- Chronic illness
- Trauma
- No safe path to school
- Poor Transportation
- Housing instability
- High mobility
- Involvement with child welfare or juvenile justice system

Aversion

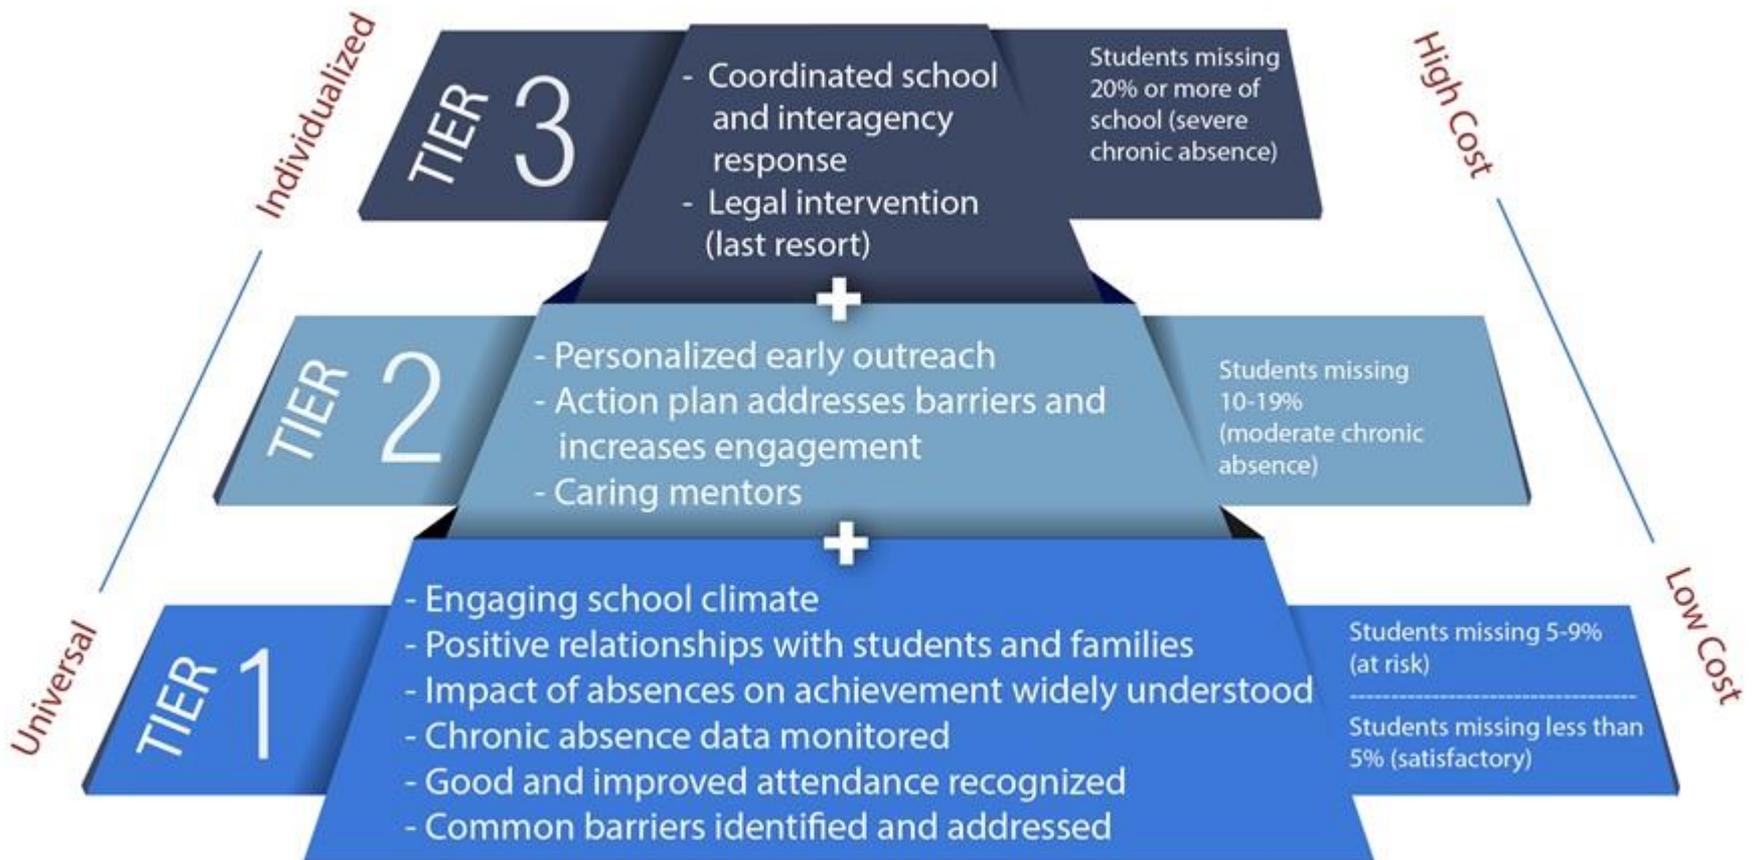

- Struggling academically or socially
- Bullying
- Ineffective / exclusionary school discipline
- Parents had negative school experience
- Undiagnosed disability

Disengagement

- Lack of engaging and culturally relevant instruction
- No meaningful relationships with adults in school
- Vulnerable to being with peers out of school vs. in school
- Poor school climate
- Discouraged due to lack of credits

Role of Teachers

Most High-Absence Parents Reported that Their Schools Had Not Contacted Them

72% of parents reported that they most **trust teachers** to talk to them about absences.

BUT

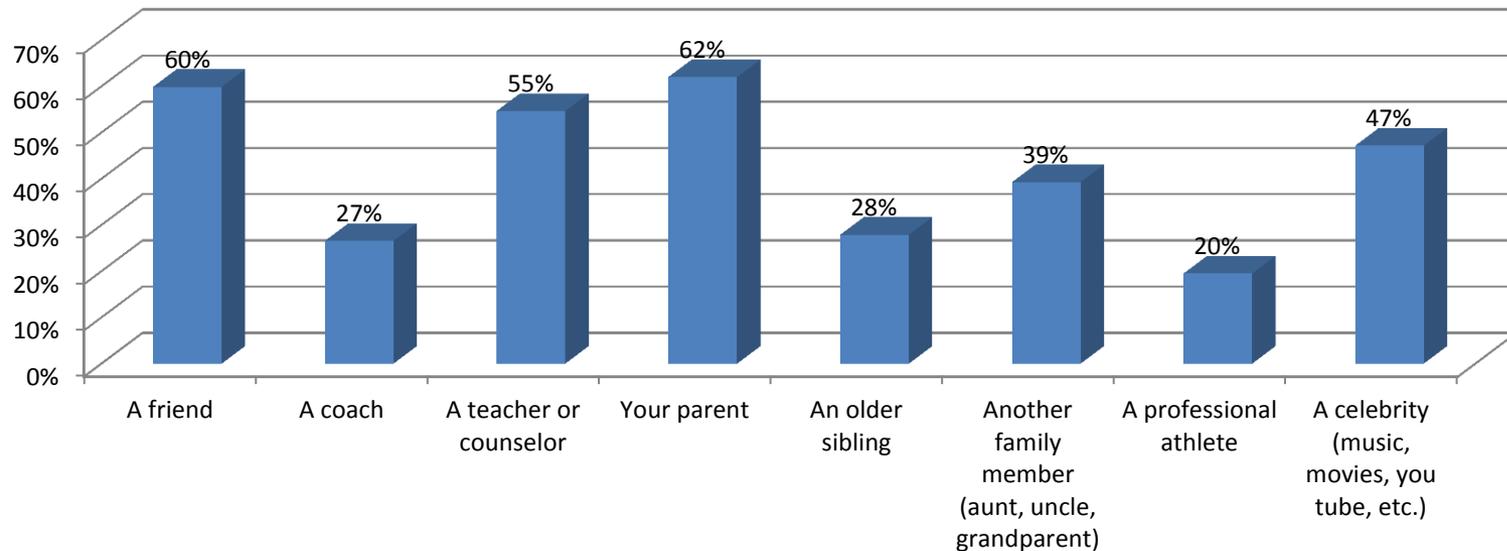

Only **42%** reported that a school official, including a teacher, contacted them about attendance in the last 6 months.

We need to make it easier for teachers and school leaders to talk to parents about absences.

Who Will I Listen To?

- Students are most likely to listen to advice given by a friend and/or parent.
- Teachers and celebrities are the next most trusted sources for information.
- Middle school students, African Americans and students who miss occasionally and frequently are most likely to prefer advice from celebrities.
- Latinos and African Americans are most likely to prefer advice from their parents.

Invest in Prevention and Early Intervention

Who Can Teach Attendance?

- ★ Teachers
- ★ Administrators
- ★ Resource specialists
- ★ Instructional aides
- ★ School secretaries
- ★ Counselors
- ★ Bus drivers
- ★ Cafeteria workers
- ★ Everyone in the school building who has daily contact with students and families!

Everyone Can Teach Attendance!

EVERYONE CAN TEACH ATTENDANCE

Schools that successfully reduce chronic absenteeism have created a school wide culture of attendance that involves everyone in the building. Teachers are key to this, especially certificated classroom teachers, resource specialists, and instructional aides. Other professionals who interact with students and their families daily—school secretaries, bus drivers and kitchen staff—can also make a difference in helping students get to school every day.

Four Key Steps

- 1 Create a welcoming environment that engages students and families
- 2 Engage families at parent-teacher conferences
- 3 Use data to ensure early intervention and secure needed supports
- 4 Advocate for school-wide action

Step 1

Section A: Create a welcoming environment that engages students and families

1. Build Positive Relationships
2. Use Effective Messaging
3. Recognize Good and Improved Attendance
4. Emphasize attendance strategically throughout the year

Section B: Engage families at parent-teacher conferences

Use these materials to discuss attendance during regular parent-teacher conferences:

- ✓ Making the Most of Your Parent-Teacher Conference – A Step-by-Step Guide
- ✓ Student Attendance Success Plan
- ✓ Attendance Works' simple Classroom Attendance Tracker
- ✓ Get Schooled Attendance Calculator

step 3

Section C: Use data to ensure early intervention and secure needed supports

1. Monitor chronic absence data
2. Anticipate needed supports
3. Gain a working knowledge of available resources
4. Determine the best way to connect with the student and family

High Impact Relational Home Visits: A Tier 1 Practice to Support Attendance

Participation Outcomes

For Staff and Families:

- Increased Trust and Empathy for Co-Educators
- Increased cultural empathy and knowledge
- Increased Capacity to Engage Students in Academics

For Students:

- Increased Attendance Rates
- Increased Academic Success
- Decreased Suspensions and Expulsions
- Increased Applications to 2 & 4 year Colleges

2015 Research, Johns Hopkins University

Students whose families received a relational home visit had **24 percent fewer absences** than similar students whose families did not receive a visit
