

How to Assemble Punctual Pete!

Materials

- Pete face (1)
- M&M candy costume (1)
- Heavy Duty Velcro Strips (4 Strips 6" to 8" long each)

1. Remove Pete face and M&M costume from outside packaging.
2. Place Pete face on a flat, dry surface with the illustration face down.
3. Turn M&M costume inside out so that white fabric is on the outside of the costume.
4. Lay the M&M costume on top of the Pete face, white side up. Make sure that the 12 –o'clock hour is in line with the head opening of the M&M costume.
5. Place 4 strips of Velcro in a square with equal distance between the strips. Ideal placement for the strips is one (1) strip under each eye, and 2 strips under the bottom lip, in line with the other strips. CAUTION: Make sure that the Velcro is consistent with the strips. For example, make sure that all four strips are either the cotton side or the Velcro side, not both.
6. Flip the M&M costume white side down, taking care to make sure that the 12 o'clock hour is still in line with the head opening.
7. Fold one side of the costume back, remove the tape adhesive for two (2) strips and stick to Pete face. Repeat for second side.
8. Try on your costume!
