Committed: Supporting Attendance and Participation to the Very Last Day of School, Wednesday, April 14, 2021: 11am-12:30pm PT / 2pm–3:30pm ET

Webinar 2 *(today)*

Engaged: Using Summer to Connect with Students and Families, Wednesday, May 26, 2021: 11am-12:30pm PT / 2pm–3:30pm ET

Webinar 3

Welcomed: Embracing Students, Families and Educators in the New School Year, Wednesday, August 4, 2021: 11am-12:30pm PT / 2pm–3:30pm ET

Webinar 4

Fully Present: Leveraging Attendance Data to Ensure Ongoing Success, Wednesday, September 29, 2021: 11am-12:30pm PT / 2pm–3:30pm ET

2021 Theme: Rebound with Attendance!

Key Messages

- 1. Chronic absence reflects and contributes to educational inequity.**
- 2. Building strong, trusting relationships that promote a feeling of belonging is fundamental to improving student attendance and engagement.**
- 3. Students are more likely to attend school if they feel safe, connected and supported.**

2021 Theme: Rebound with Attendance!

Key Messages

4. **A positive, problem-solving approach driven by data will improve attendance.**
5. **Keeping students, families and school staff physically and emotionally healthy supports attendance.**
6. **When the whole community collaborates with families and schools, we can overcome barriers to attendance and engagement.**

Welcome

Chronic Absence Measures Lost Opportunity to Learn

Chronic absence is missing so much school for any reason that a student is academically at risk.

Chronic absence is defined as **missing 10 percent or more of school for any reason.**

Chronic absence is different from **truancy** (unexcused absences only) or **average daily attendance** (how many students show up to school each day).

**What is the relationship
between absences and equity?**

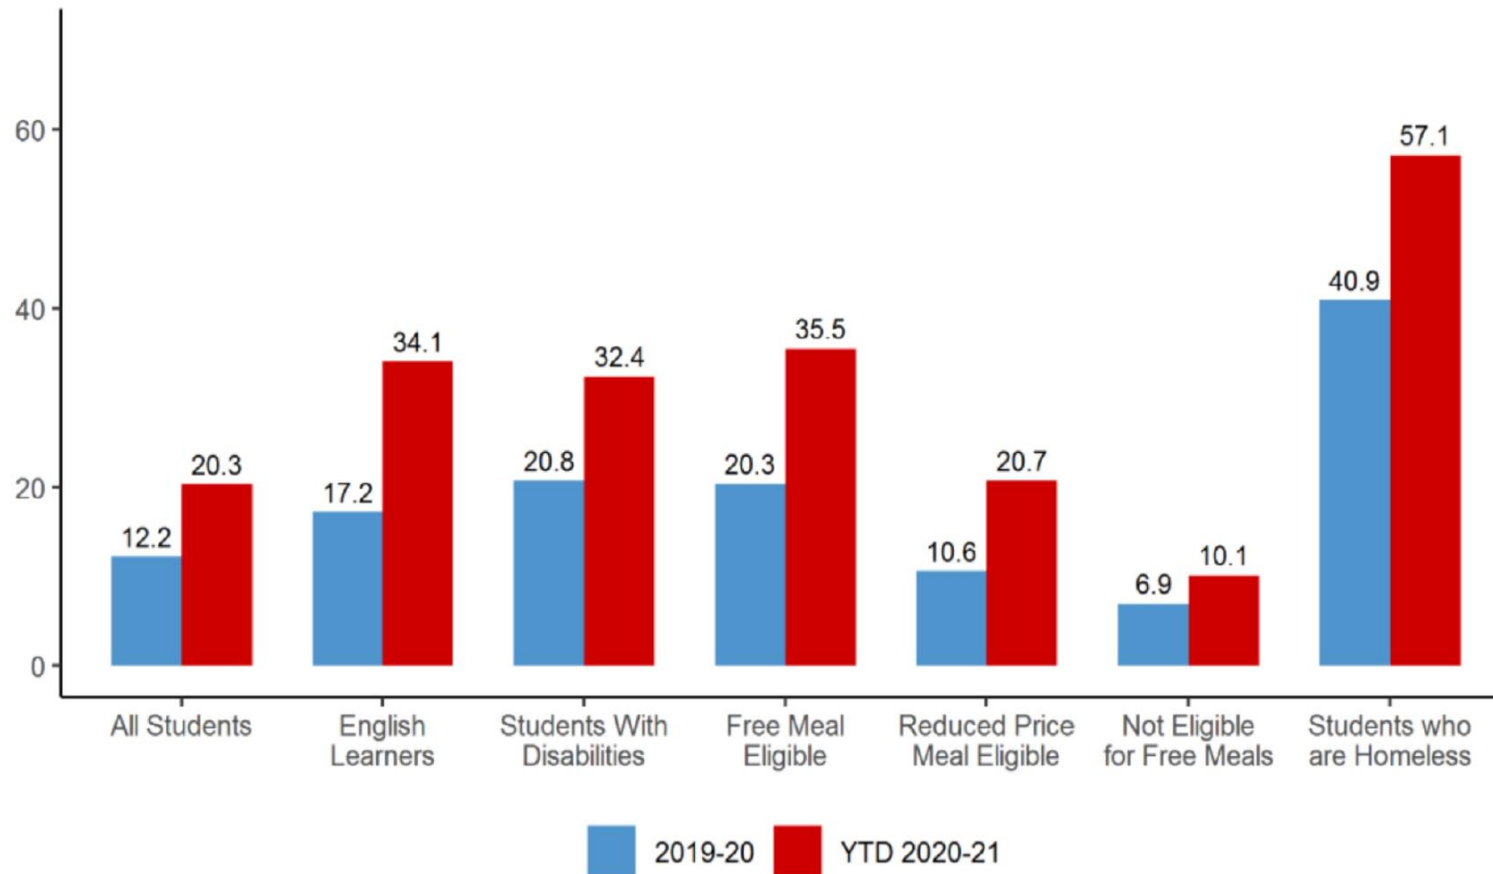

**Chronic absence is a *leading*
indicator and a *cause* of
educational inequity**

Improving Attendance Matters

Early SY 2020-21 Data Shows Dramatic Increases in Chronic Absence, Especially for Students Hard Hit by Pandemic

**Percentage of Students Chronically Absent in Connecticut
(YTD as of March 2021 compared to 2019-20)**

- This data from Connecticut is the first statewide data available in the country.
- Connecticut has a long history of investing in accurate data.
- Connecticut defined chronic absence as attending at least .5 day in distance as well as in-person learning.
- Calculations include in person and remote days
- Calculations for 2019-20 are based upon in person school days til Mid-March 2020.

Prior to the pandemic, chronic absence affected 8 million – or one out of 6 – students nationwide.

Present Danger:

Solving the Deepening Student Attendance Crisis

A new report from FutureEd takes a deep dive into 5 large school districts working with EveryDay Labs.

- Not only are more students missing school, they're missing many more days. The extent of “extreme chronic absenteeism,” missing half the school year, is way up
- Absenteeism rates are rising faster among younger students
- Disadvantaged students see the biggest jumps in chronic absenteeism rates in every community
- Enrollment declines are most severe in the early grades
- Perfect attendance rates are also up, likely a mirage created by the changes in measuring attendance in the pandemic

<https://www.future-ed.org/present-danger-solving-the-deepening-student-absenteeism-crisis/>

Chronic Absence is an Early Warning that Positive Conditions for Learning Are Missing Whether Classes Are In Person, Distance or Blended

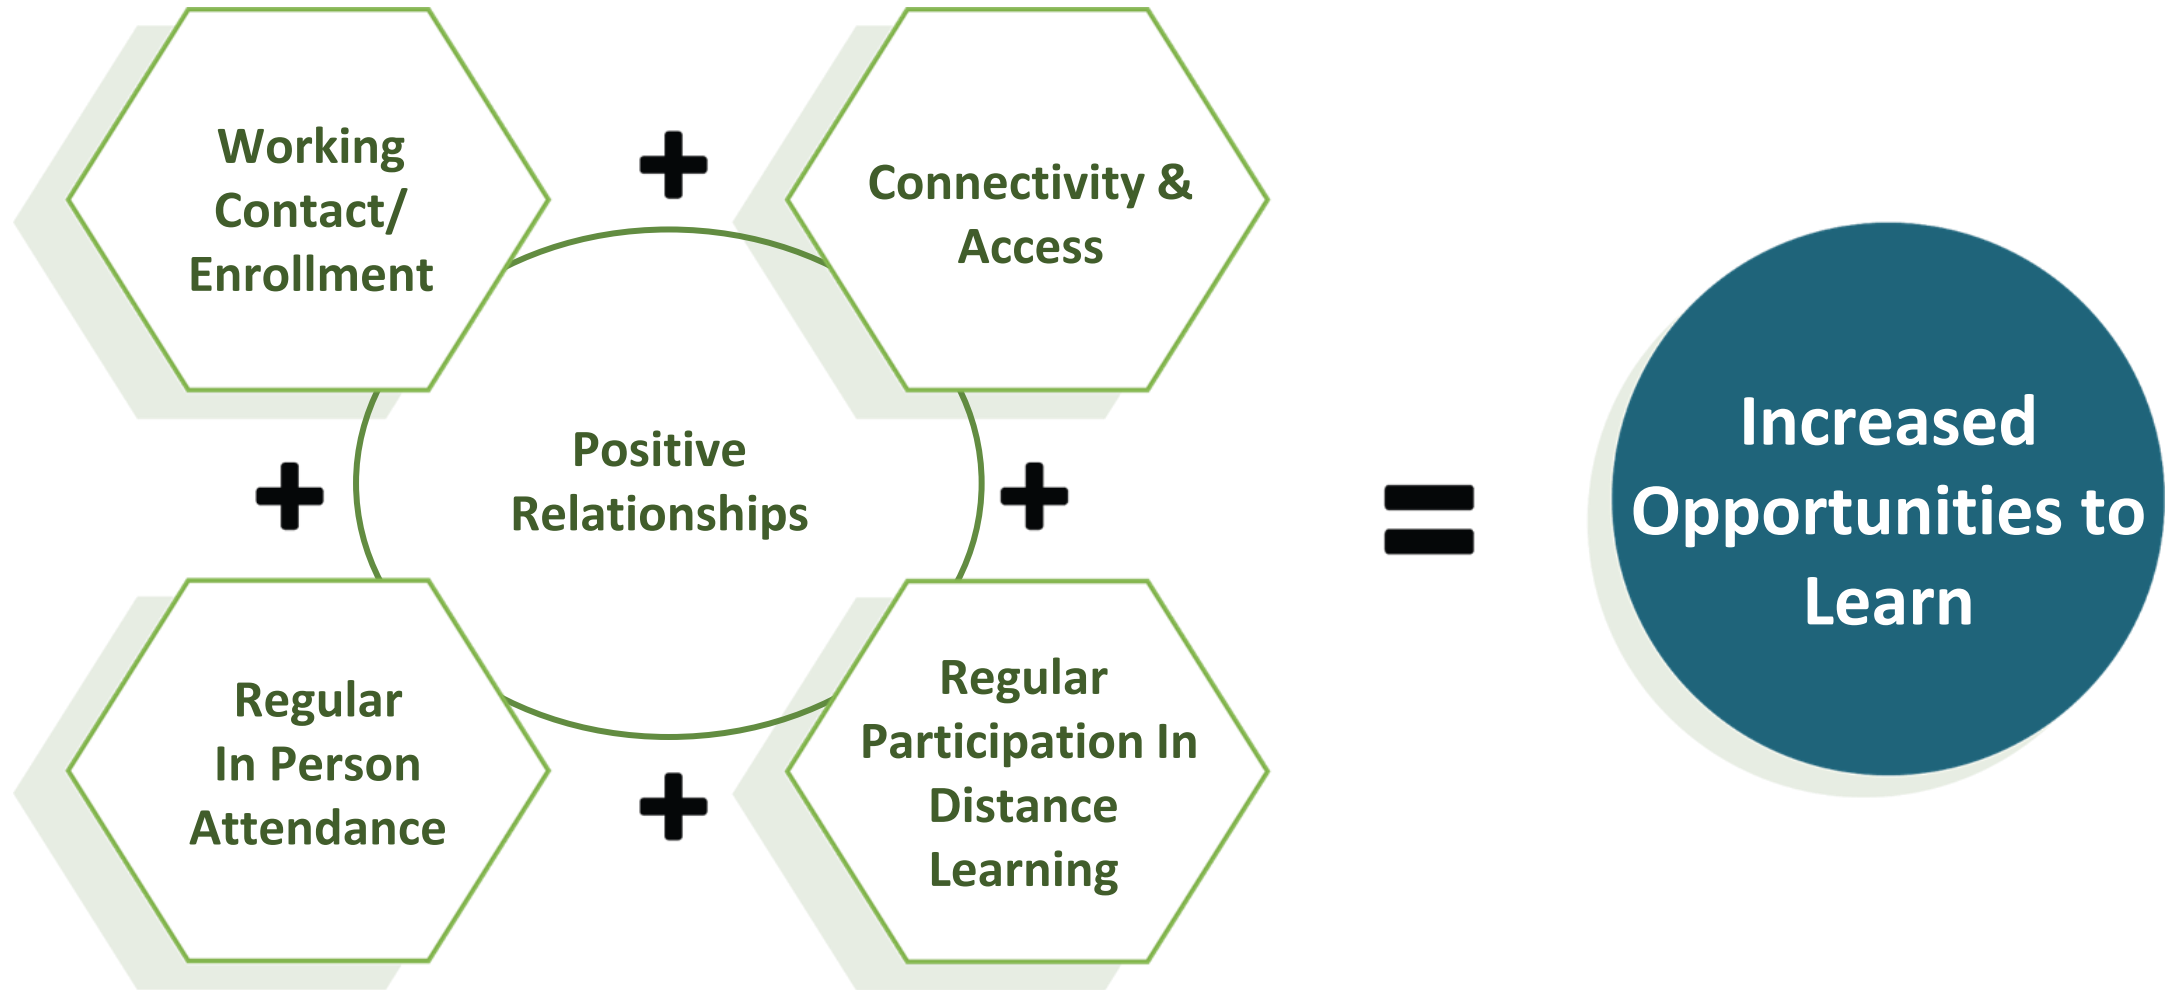

Pay Attention to Transition Grades

Grade	Why pay attention to transition in these grades?
Kindergarten	What happens when children are entering formal schooling helps lay the foundation for future success. Families often do not recognize how absences add up quickly for young children and are often very concerned about their children's health and safety.
6 th	The shift to middle school is an important transition often marking when parents rely upon students to show up to class on their own. Academic and behavioral success during this transition year is crucial for later school success.
9 th	Students on-track in the 9 th grade are <i>almost four times</i> more likely to graduate than off-track students. Students may not recognize the impact of absences on passing courses and gaining needed skills.
12 th	Senior year is a critical time for ensuring students complete all the requirements for graduation and enrolling in post-secondary education.

Expanding How to Measure the Opportunity to Learn

Pathways to Engagement: *A Toolkit for Covid-19 Recovery Through Attendance*

Step 1: Establish Your Team

- ❖ *Convene a small group of leaders if you are just starting or integrate into the work of an existing team.*

Step 2: Identify Priority Populations

- ❖ *Use data to identify which group(s) of students or schools most need additional engagement and better understand their strengths and challenges.*

Step 3: Craft Engagement Strategies

- ❖ *Take a multi-tiered approach to engagement, especially for priority populations, that starts in the Spring, persists in the Summer and is amplified in the Fall.*

Step 4: Reflect, Learn and Improve

- ❖ *After each phase of work, invest in taking stock to assess what worked and what can be improved for the future.*

Ensuring Attendance Requires A Team

The Attendance Strategy should be led by the school principal and the leadership team.

Teams working on improving student attendance could include the school's:

- * Nurse
- * Counselor
- * Social Worker
- * Administrative support staff
- * Special education staff
- * Teachers
- * Early education staff
- * Expanded Learning program staff
- * Community School Coordinators

Members should be able to bring the perspectives of the student demographics.

Teams should incorporate input from families and students and can include staff from community partners.

Attendance Functions of a School Team

1. **Organize a multi-tiered attendance strategy that begins with prevention and early intervention.**
2. **Examine attendance and absenteeism data to assess which groups of students have higher or lower levels of absence.**
3. **Identify barriers and inequities that prevent students from attending school.**
4. **Mobilize everyone in the school community to address attendance.**
5. **Determine if you are making a difference.**

Take a Tiered Approach to Engagement

Begin with a strong, “relationship centered” foundation

Physically healthy learning environment	Enrichment activities and clubs	Positive relationships	Support for families to facilitate learning at home
Access to tech equipment and connectivity	Access to Learning Supports	Routines, rituals and celebrations	A culture of continuous improvement
Welcoming, safe, trauma-informed school climate	Home rooms and/or Advisory	A published schedule of classes	Active engagement of families in planning
Foundational Supports			

Partners for Change

The greater the size of the challenge, the more partners are needed. Many different types of partners can be enlisted, but local government and public agencies are especially important. Tap into existing initiatives and coalitions to engage potential partners.

- Businesses
- Community Schools Initiatives
- Family Support Organizations
- Early Childhood Providers
- Faith Based Organizations.
- Health/ Mental Health Providers
- Housing Agencies
- Hunger Relief Organizations
- Institutes of Higher Education
- Local / Tribal Governments
- National Service/ Volunteers/Mentors
- Out of School Time providers
- Social Emotional Learning Providers
- Social Services
- Population-Specific Service or Civic Organizations
- Philanthropy (including foundations and United Ways)

Summer Build Bridges to School

- ✓ Create opportunities for students to socialize with peers, get into a routine of in person attendance, and engage in enriching programming and experiential learning. Such bridge programming is especially important for young children with little formal schooling experience, students who had significant absences during the school year and transition grades.
- ✓ Reach out to students and families with limited attendance and engagement during the school year or attendance challenges during summer programming.
- ✓ Establish a planning committee for the return to school that is inclusive of students and families

OUR VISION

Ensure every child, regardless of background and zip code, learns and thrives every summer.

OUR WORK AIMS TO:

- **Improve the lives of America's most vulnerable students**
- **Combat summer learning loss**
- **Close the achievement and opportunity gaps which grow over the summer months**

SUMMER: A METAPHOR FOR INEQUITY AND OPPORTUNITY

“Four I’s of Summer”

Time for Improvement

Provides *both* students and staff opportunities to learn, and practice new skills. “No training about kids without kids.”

Time for Innovation

Most entrepreneurial time in education. Chance to incubate, try out and measure new ideas before scaling.

Time for Integration

Chance to break down artificial silos in education. Model what multi-sector partnerships look like.

Time for Impact

Life transition point. Immediate and lasting personal impact. Build community. A solvable national challenge.

In 2016, Discover Together's Building Strong Brains program began working with a local elementary school around the issue of chronic absenteeism. At that time, the elementary school had a 25% chronic absenteeism rate, the highest in the district. That rate has dropped substantially over the past 5 years.

	2017	2018	2019
2018-19 Chronic absenteeism	9.6	11.8	4

But what if they are in school...but not in the classroom?

What does this mean?

This figure shows the rate of in-school suspensions over time for a school or district.

Why is this important?

In-school suspension trends allow us to see whether schools or districts are seeing improvements in in-school suspensions over time.

Bridges to School: Phase 2, Summer **Student Group: Incoming Preschool or Kindergarten Students**

This grid offers examples of strategies that can promote attendance in the summer by creating a sense of belonging among current and prospective students. It is organized using a [tiered support system](#). The examples included are meant to inspire your thinking about what you might do in your own school or district. For each activity, you might specify who is responsible for leading and how to measure results of the strategy.

	Strategies for Creating a Bridge to School	How to Prepare	Special Considerations
Foundation	<p>Develop a preschool or kindergarten orientation for all students and families that includes a welcoming action when a family enrolls along with activities that peaks the week before school starts.</p> <p>-----</p> <p>Use the summer to offer community-building activities such as individual welcomes, virtual and/or in-person meet and greets, small group</p>	<p>Create a committee that can help plan for the launch of in-person group learning for young children in your program, or school. Pathways to Engagement: Organizing Your Attendance Strategy

Thursday, June 3rd at 2:30pm ET

After more than a year of disrupted and interrupted learning, students, families and educators are anticipating the return to a new school year. How can schools and community partners build off insights from chronic absence data to organize an effective attendance and engagement strategy for a successful start to the 2021-22 school year? Join Attendance Works for this deep dive into three critical stages:

- Nurture Belonging in School
- Build Bridges to School
- Create Community at School
