Sense of belonging at Gila Ridge: bridging the gap between our team on site, using a new system in our office to identify those students who are not coming to school. Also we offer so many clubs for our students from NHS, to Gamers Guild to Youth for Christ to Connection Club. Just to name a few of our 20 some odd clubs we have.

Disconnected families: Creative discipline if needed, communication with families to identify why that student is not coming to school and how we can support the student to be successful in school. Home visits are a part of our drop out prevention specialist work.

ANONYMOUS 4/16/24 6:59PM

Social worker works with McKennyVento (homeless) students. These students are lacking connections. The connections they provide are the resources the school can provide to support them.
