Overview of Chronic Absence

Improving Attendance Matters

What is chronic absence?

Chronic absence is missing so much school for any reason that a student is academically at risk. Chronic absence is defined as **missing 10 percent or more of school for any reason.**

Chronic absence is different from **truancy** (unexcused absences only) or **average daily attendance** (how many students show up to school each day).

What is the relationship between absences & equity?

Absenteeism is a *leading* indicator and a *cause* of educational inequity

Unexcused absences are much higher among socioeconomically disadvantaged students and from communities of color

Figure 6. Racial and ethnic disparities in the percentage of absences labeled unexcused among students who are socioeconomically disadvantaged and those who are not, 2021–22

Percent of all student unexcused absences in regular K–12 California schools, by year and student socioeconomic disadvantage.

Large disparities in unexcused absenteeism persisted within each socioeconomic stratum in SY 2021–22 for Black, Pacific Islander, American Indian, and Hispanic students compared to White students.

 Help with homework 	× Denial of help or no credit for homework
✓ Make-up exams	× No make-up exams
 Home tutoring provided 	× Denial of class credit
	× Removal from extracurricular activities
	× Send notices of truancy
	*If unexcused absences accumulate despite earlier outreach from schools and districts, courts can:
	Fine students and parents
	 Require a community service program or parenting program
	Charge parents with a misdemeanor

Foundational Supports Which Promote Positive Conditions for Learning

<u>Tier 1</u>: Universal Attendance Supports

 Clear, concise and consistent communication about schedules and expectations

- Routines, rituals and celebrations related to attendance and engagement
- Personalized positive communication to families when students are absent
- Recognition of good and improved attendance
- Impact of attendance on whole child widely understood
- Connection to a caring adult in the school
- Every child and their family encouraged to develop a success plan that includes attention to attendance

Share in Chat: In your experience, which Tier I attendance supports have been most essential at your school or in your district?

<u>Tier 2</u>: Early Interventions Layer in Support and Remove Barriers to Attendance

- Common community and school barriers identified and addressed
- Individualized student success plan that includes attention to attendance
- Attendance strategies added to IEP
- Family visit
- Mentors (e.g., Success Mentors, Peer Group Connections)
- Intensive tutoring
- Check-In/Check-Out (CICO)
- Expanded learning opportunities
- Small group interventions and supports for students
- Restorative alternatives to discipline and suspension

- Educational support champions / advocates
- ✤ Interagency case management
- Housing stability supports
- Student attendance review board
- Community-based, non-criminal truancy court
- Individualized learning and success plan leading to graduation
- Legal Intervention (as a last resort)

Conditions for Learning: Belonging, Connection and Support

Challenging Condition

- □ Limited support provided
- Weak relationships between students and staff
- □ Negative peer relationships

Positive Condition

- Meaningful connection to adults in the school
- Adults emotionally attuned to students
- $\hfill\square$ Care and inclusivity
- Cultural respect and responsiveness
- □ Positive peer relationships
- Equitable, effective and available support

Small Group Discussion

About your school:

- In your experience, what creates a sense of belonging, connection and support in your school?
- How do you reach students and families who've been disconnected?

Ground Rules

- Turn on your video camera
- Briefly introduce yourself
- Ask clarifying questions
- Explore differences of opinion
- Create space for everyone to speak (and use the chat to express ideas)
- The person whose first name is closest to the letter "A" should facilitate.

Involve all adults in relationship mapping.

Key Benefits Connect all students to at least one school adult.

A Relationship Map lists all students in a school (or grade, team, etc.).

low

A Relationship Map allows adults in a school to have a quick and visual snapshot of students who are well supported and who most need support. Knowing this, adults can then strategize about how to best reach out to students who most need positive and supportive relationships with adults.

A Relationship Map is most effective if all adult stakeholders with a connection to students participate in its creation. This includes administrators, teachers, counselors, sports coaches, mentors, community partners, and other school staff.

A Relationship Map helps identify students who do not already have adult connections and provides opportunities for adults in school to build positive relationships with those students.

Strategies and Tools to Communicate About Attendance

Toolkit: Showing Up Matters for R.E.A.L.

It is an opportunity to ...

✓ Build Routines

Daily attendance routines can reduce stress and create a sense of safety and security especially after chaotic transitions.

✓ Increase Engagement

Being in school helps build relationships with peers and school staff that nurture engagement.

✓ Provide Access to resources

Schools provide access to meals, health and mental health services, tutoring, mentoring, technology, extracurriculars (sports, clubs, music, etc.), afterschool and summer programs.

✓ Support Learning

Showing up to school regularly helps students become proficient in reading and math and graduate from high school.

Forging Partnerships with Families to Support Engagement and Attendance

- Engage in two-way, supportive communications about attendance and engagement throughout the school year
- Provide tailored, personalized and caring messages to students and families who are chronically absent
- \checkmark Offer actionable steps to improve attendance
- ✓ Make sure families receive updated health guidance, resources to meet basic needs as well as as support for learning at home

Utilize Research about Effective Attendance Messaging to Improve Your Communications

Which of these flyers aligns with research? Why?

With the widespread news coverage about the coronavirus, known as "COVID-19", children may develop fears about the risk to their own health and safety. It is important for parents to listen to these fears, and learn some of the basic facts themselves.

Be aware of your own behavior

It can impact how your child may feel. If you're anxious, they could take their cues from you.

Stay up-to-date with information

This can help you understand and share the facts about COVID-19 with your children.

Know whether or not to talk about COVID-19 with them

It is important to know what children have heard about COVID-19 already. It is likely that they are talking about it in school, so just because your child doesn't bring it up, doesn't mean they aren't thinking about it.

Explain what is currently being done to contain COVID-19

Reassure children that the measures put in place are the best ways to keep them safe. The U.S. is carefully monitoring the situation and currently the risk in Chester County remains low. Health Departments, such as the Chester County Health Department, are encouraging personal preparedness and prevention tips to keep the community healthy.

Know what information your children are exposed to

Be mindful about where your children are being exposed to information about COVID-19. For example, they may overhear conversations, or pick up on the continuous news headlines that adults have on as background.

For teenagers and tweens who have access to news online and via social media, ask them what they are seeing and hearing about COVID-19. Help correct misinformation, and if you don't know the answer, be honest. You can research the answers together.

Validate their feelings and reassure them

Parents should listen to their child's fears and try to understand what they are feeling. Avoid saying things like "you'll be fine" or "don't worry about it."

Give them action items

Remind them of the importance of washing hands often (for at least 20 seconds), avoid touching their eyes, mouth, and nose, and keeping their areas clean by wiping down things that are used often. If your preparedness plans include stocking up on groceries and toiletries, like you would before a big snowstorm, ask your child to help. Invite them to go the store with you. Having a stash of their favorite snacks in the pantry may help them feel more prepared.

Help Your Child Succeed in School: Build the Habit of Good Attendance Early

DID YOU KNOW?

- Starting in preschool and kindergarten, too many absences can cause children to fall behind in school.
- Missing 10%, or about 2 days each month over the course of a school year, can make it harder to learn to read.
- Students can still fall behind if they miss just one or two days every few weeks.
- Being late to school may lead to poor attendance.
- Absences and tardiness can affect the whole classroom if the teacher has to slow down learning to help children catch up.

Attending school regularly helps children feel better about school—and themselves. Start building this habit in preschool so they learn right away that going to school on time, every day is important. Eventually good attendance will be a skill that will help them succeed in high school and college.

WHAT YOU CAN DO

Set a regular bedtime and morning routine.
Lay out clothes and pack backpacks the night before.

NARNING SIGNS

10 to 17 days

9 or fewer absences

- Find out what day school starts and make sure your child has the required shots.
- Introduce your children to their teachers and classmates before school starts.
- Develop backup plans for getting to school if something comes up. Call on a family member, a neighbor, or another parent.
- Avoid medical appointments and extended trips when school is in session.
- Keep in mind that complaints of a stomach ache or headache can be a sign of anxiety and not a reason to stay home. If your child seems anxious about going to school, talk to teachers, school counselors and other parents for advice on how to make your child feel comfortable and excited about tearning.

UPDATED! Data Tracking Tools

What? Attendance Works District and School Attendance Tracking tools

Why? These tools will help you analyze your local data. This version now captures information about students experiencing extreme chronic absenteeism (missing 50% or more of school).

When? Before the new school year begins is an excellent time to examine who was chronically absent last year.
