Know Your Students' Attendance Status in BCPS

DAYS MISSED IN SCHOOL YEAR							
Regular or Satisfactory Attendance	0-4 absences						
At-risk Attendance	5-9 absences						
Moderate Chronic Absence	10-23 absences						
Severe Chronic Absence	24+ absences						
Extreme Chronic Absence	Missed 50% or more (90 or more days in a 180-day school year)						

Attendance Status Values

Let's Practice!

Can you calculate the chronic absence rate and attendance category for these students?

It's the 100th day of school...

- Which students have satisfactory attendance?
- Which students are in the at-risk category?
- Which students are chronically absent?

Student	Number of Absences	Calculation	Chronic Absence Rate (%)	Attendance Category		
Harry	11	11 ÷ 100 =	11%	Moderate		
Hermione	1	1 ÷ 100 =	1%	Satisfactory		
Ron	6	6 ÷ 100 =	6%	At-risk		
Draco	22	22 ÷ 100 =	22%	Severe		
Voldemort	63	63 ÷ 100 =	63%	Extreme		

Tailor Conversations to Students' Attendance Status

Satisfactory Attendance

At-Risk

Chronic Absence

Congratulate them on their student's good attendance.

Ask them what they're doing that's enabling them to be so successful!

Let them know that you are concerned about attendance because the student is beginning to head off track, and it is easy for absences to add up.

If student is missing 10% or more

Let them know student may be at risk because of their absences.

Discuss underlying causes and how you can help.

If student is severely or extremely chronically absent (e.g. >20%)

These families may face greater challenges.

Consider involving support staff in the family meeting.

Be supportive and ready to connect the family to community resources.

Reflection

We've all had the experience of conversations going poorly when trying to broach a sensitive subject. Take a moment and reflect about an instance when this happened.

- Why the conversation went badly
- What could have helped

Please share your thoughts in chat.

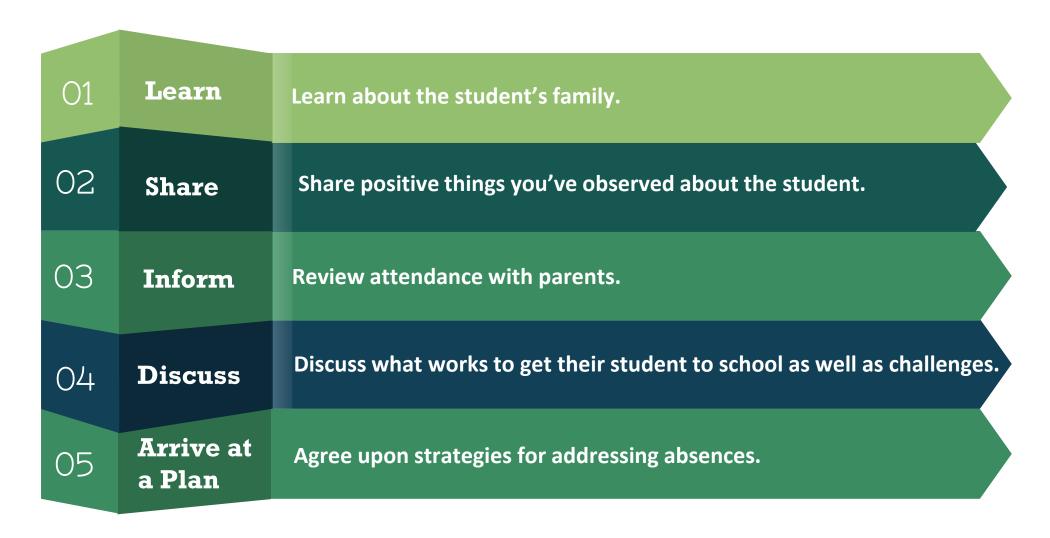

- Charlotte Brown is a 6th grader who performs on an average level. She struggles to keep up with some of her more challenging classes.
- Since the first of the year, Charlotte has been unusually quiet and distracted in class. She
 has been sitting alone during recess. In the first twelve weeks of school, she has missed 8
 days.
- Charlotte's mother is divorced, and Charlotte's father is not present in her life. Charlotte is very fond of her older cousins that live in a neighboring town. They invited her to stay for a long weekend before school started back this summer.
- Unfortunately, Charlotte was witness to a violent altercation at a party with a lot of alcohol and someone pulled a gun when Charlotte's cousin told him to leave. No one was hurt, but Charlotte was scared for herself and her cousin. Charlotte was asked questions by the police about what she saw. She is having night terrors and often up most of the night. She does not want to leave home in the morning.

The "Caring Conversations for Attendance" Process

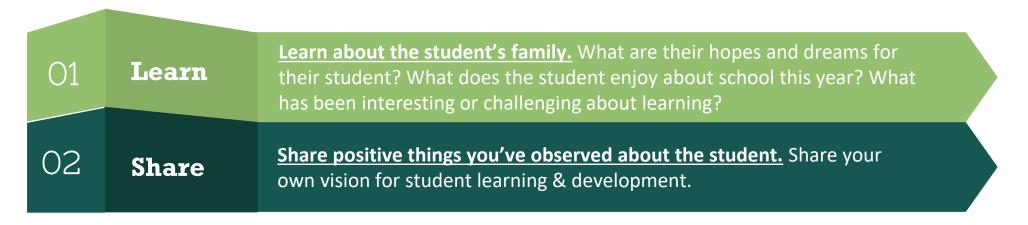

Steps 1 & 2: Learn and Share

Share in Chat:

- What excellent questions can you ask to learn about a student's family?
- I. What are some positive observations about a student you might share with the student or family?

Step 3: Inform

03

Inform

<u>Review attendance with parents</u>. Tailor conversation to student's level of absenteeism & inform them of possible impacts of missing school. How might poor attendance affect their hopes and dreams for their student?

- I. Show absences marked on a school calendar
- 2. Identify patterns
- 3. Share what key concepts a student missed relating back to the hopes and dreams that the student or parents shared

Step 4: Discuss

 \bigcirc 4

Discuss

<u>Discuss what works to get their student to school as well as challenges.</u> Explore options for making up for lost learning time in the classroom.

- Learn about student motivations.
- 2. Discuss reasons for absenteeism.
- 3. Explore what would help reduce absences and increase engagement.
- 4. Identify opportunities to make up for lost learning in the classroom.
- 5. Use help bank to identify support systems.

26

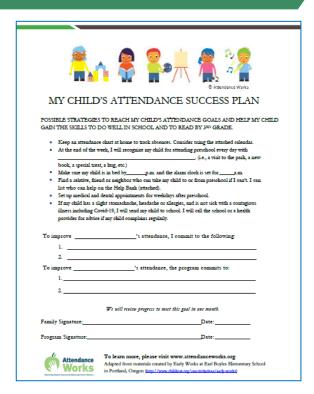

Step 5: Arrive at a Plan

05

Arrive at a Plan

Assess strategies for addressing absences. Help students and families develop an attendance and learning plan. Offer referrals to services as needed and ask if there are other ways you can help.

- I. Work with the family to identify specific steps that will help to prevent absenteeism in the future.
- 2. Develop and complete a plan for attendance and learning
- 3. Ensure that the plan includes any support that the school will offer as well
- 4. Provide a copy of the plan to the student/parent
- 5. Agree on a timeline to check in and see how things are progressing

Determine if you are making a difference

Measuring Progress

Answer these four key questions:

- I. How much did we do? (quantity)
- 2. How well did we do it? (quality)
- 3. What difference did we make for the students who received support?
- 4. What was the impact on the school as a whole?

PDSA Example: Lunch Buddies

Goal: Improve attendance for disconnected students

$Plan \rightarrow Do \rightarrow Study \rightarrow Act (PDSA) Plan$

Testers: Counselors Test Title: Lunch Buddies Cycle #: 1

What change idea is being tested?

Lunch Buddies is the change idea. Counselors will invite students who seem disconnected to eat lunch and meet with peers in small groups every Friday.

Date of test: February 25, 2022

(After the first attempt, review the data, discuss and make modifications to increase outcomes for the next week. Use a new form every week to record results.)

What is the overall goal of this test?

Improve attendance for students who seem to be disconnected and who have missed between 10-19% of the school year. Students who feel more connected to their peers will have better attendance. Selected students will have fewer total absences on the day of the test than on the previous Friday as a result of feeling more connected to peers.

Driver:

Positive Peer Relationships

Learning Questions: What do you hope to learn from this test?

- Q1 Are counselors willing to support this intervention?
- Q2 Which students will show up?
- Q3 Does attendance improve on Fridays?
- Q4 Are there any spillover effects, i.e. does attendance improve the other days of the week?

PDSA Example: Lunch Buddies

Goal: Improve attendance for disconnected students

$Plan \rightarrow Do \rightarrow Study \rightarrow Act (PDSA) Plan$

	Plan		Do	Study
Details: What are the steps in the test? Who will implement it?	Predictions: Make a prediction for each question. Not optional.	Data you will collect	Briefly describe: what happened during the test, surprises, difficulty getting data, obstacles, successes, etc.	What were the results? Comment on your predictions in the rows below. Were they correct? Record any data summaries as well.
 Recruit counselors Select outdoor or well-ventilated location where groups can sit in a circle Agree on conversation starters Invite all students Special outreach to students who are chronically absent Note which students attended after each session 	Q1 - Prediction - All counselors are willing to help	Attendance of counselors	We had four counselors and 24 students. The students were split into groups of six. There was a miscommunication and the special outreach to chronically absent students did not happen.	All but one of the counselors showed up. She was out sick.
	Q2 - Prediction - Students who have satisfactory attendance and at-risk attendance will show up. Some students who are chronically absent will show up.	List of students who participate each Friday sorted into attendance categories.		Of the students who were invited, half showed up. Only about a quarter of the chronically absent students made it
	Q3 - Does attendance improve on Fridays?	Compare the total number of absences for targeted students on this Friday with the total number of absences for targeted students on previous Friday.		Yes, several of the chronically absent students who attended the lunch had been absent the previous Friday.
	Q4 - Are there any spillover effects?	Compare the total number of absences on the following Monday with previous Mondays.		The Monday absences were the same as the previous week.
